2019 ISSUES AND PRIORITIES REPORT - January 19, 2019

2. e. The *Judicial Committee* will review the city zoning code and related ordinances relative to requirements that parking lots have “hard surfacing.” Requirements for perpendicular signs will also be reviewed considering the code and ODOT regulations. In two related issues, the participants in this work session commended the Mayor for his plan to publicize the city’s code enforcement strategy with particular emphasis that initial efforts are aimed at educating possible violators about code requirements and assisting them in understanding appropriate remedial actions. Second, Council members asked to receive copies of the notification letters which go to property owners whose sidewalks are in violation of city code. Council’s desire is to understand current procedure and review if policy changes might be necessary to hasten compliance with the objective of the code which is pedestrian safety. The Judicial Committee may collaborate with the *Service Committee* in researching a method by which the city may make available a contracted service to assist property owners who want to bring their sidewalks into compliance
